

An Introduction to Musbak International Services

The Origin and Meaning of the Name "Musbak"

The name "Musbak" is a blend derived from the names of the founder's paternal and maternal grandfathers.

- "Mus" comes from *Muslim Muqaddam Husayn*, the founder's paternal grandfather, a scholar and the spiritual successor to Sheikh Abdulbaaki Muhammad, known as "the Grand Teacher."
- "Bak" is taken from *Abdulbaaki Muhammad*, the founder's maternal grandfather. The name symbolizes loyalty and appreciation toward two revered figures in the family known for their dedication to knowledge and faith.

Why Was the Office Named After the Grandfathers?

As a tribute to their legacy, their love for knowledge and scholars, and to follow in their footsteps in serving knowledge and society.

When Was Musbak International Established?

The office was founded in 2020 with the aim of providing distinguished educational and humanitarian services.

Who is the Founder?

Muslim Abdullateef Omatayo is the founder.

About the Founder:

Muslim Abdullateef Omatayo was born in 2000 in Iwo, Osun State, Nigeria. He hails from a prominent scholarly lineage tracing back to the reformer Sheikh Abdulbaaki Muhammad, known as "*Oluko agba*," and his successor Sheikh Muslim Husayn (*Muqaddam*). He began his Islamic education under the guidance of his grandfather, Sheikh Muslim Muqaddam Husayn, and continued his studies with his first teacher, Sheikh Bunyamin Abdulrahim Kondo (*Al-Wali*), completing both nursery and primary levels with him. He further studied at his grandfather Akinola's school before joining the school of his eminent teacher, Sheikh Muslihudeen Abdulbaaki Muhammad Al-Salafi, where he completed junior secondary school and continued until the second year of senior secondary education. He later attended *Islahu-deen Arabic School*, completing his high school education and was admitted to the University of Ilorin in 2018. He is currently pursuing higher education abroad and has participated in several academic conferences in and outside Nigeria.

General Manager Since Establishment

The office has been managed by **Mr. Muslim Abdulmujeeb Amabi** since its inception. A graduate of *Islahu-deen Arabic School* and a student at the University of Ilorin, he is the founder's brother, recognized for his dedication and professionalism. He has played a key role in developing and expanding the office's services.

Musbak International Priorities:

1. Among the first offices established to assist students with university applications and admissions worldwide.
2. Offers high-quality services at affordable prices to maximize reach and benefit.
3. Strong emphasis on long-term client relationships built on trust, continuous support, and growth.

Legal Registration and Compliance

Musbak International possesses all necessary legal documentation in Nigeria and is officially registered with the Nigerian government. All files and records are duly certified and included in the approved official documentation.

- Guidance on job application and interview preparation

Strengths

- Clear, concise, and impactful documents
- Customization for different industries and roles
- Fast turnaround and revisions included
- Confidentiality guaranteed

DRILLING A COMMUNITY WELL

Community Well Drilling Project with Water Tank and Electric/
Manual Pump for Sustainable Clean Water Supply

Implementing Body:

Musbak Charitable Foundation – Nigeria

with the project name and donor (if applicable)

Implementation Duration:

2 to 5 days

Estimated Beneficiaries:

Approximately 300 to 700 individuals

Project Goals:

- Provide a permanent and safe source of drinking water for the local population
- Reduce waterborne diseases
- Support the poor and needy with a vital daily resource
- Promote health and social development in rural areas

Estimated Cost:

₦1,500,000 (\$1,000) – ₦2,000,000 (\$1,500),
depending on location and infrastructure

Monitoring & Evaluation:

- Regular field visits
- Photo reports before, during, and after implementation
- Detailed financial and administrative report for donors

Project Components:

- Drilling a deep (tube) well to a depth of approximately 60–100 meters
- Installing an electric or manual pump
- Constructing an overhead water storage tank
- Providing multiple taps for water access
- Installing a protective fence and a signboard

Conclusion:

Community well drilling is among the noblest forms of continuous charity, whose benefit lasts beyond one's lifetime. We hope this project garners support from kind-hearted donors to quench thirst and give life.

HAND-DUG WELL

Hand-Dug Well Project for Clean Water Supply in Underserved Areas – Nigeria

Implementing Body:

Musbak Charitable Foundation

Implementation Duration:

2 to 5 days

Project Goals:

- Provide clean and sustainable water sources to the poor and remote villagers
- Reduce reliance on distant or contaminated water sources
- Improve public health in the target community
- Ease the burden on women and children who fetch water

Project Components:

- Manual well excavation to a depth of 10–25 meters (based on soil conditions)
- Lining the well with cement rings to prevent collapse and contamination
- Installing a protective iron or cement cover
- Constructing a basin for water collection

- Signboard with project or donor's name

Estimated Beneficiaries:

Approximately 100 to 300 individuals

Estimated Cost:

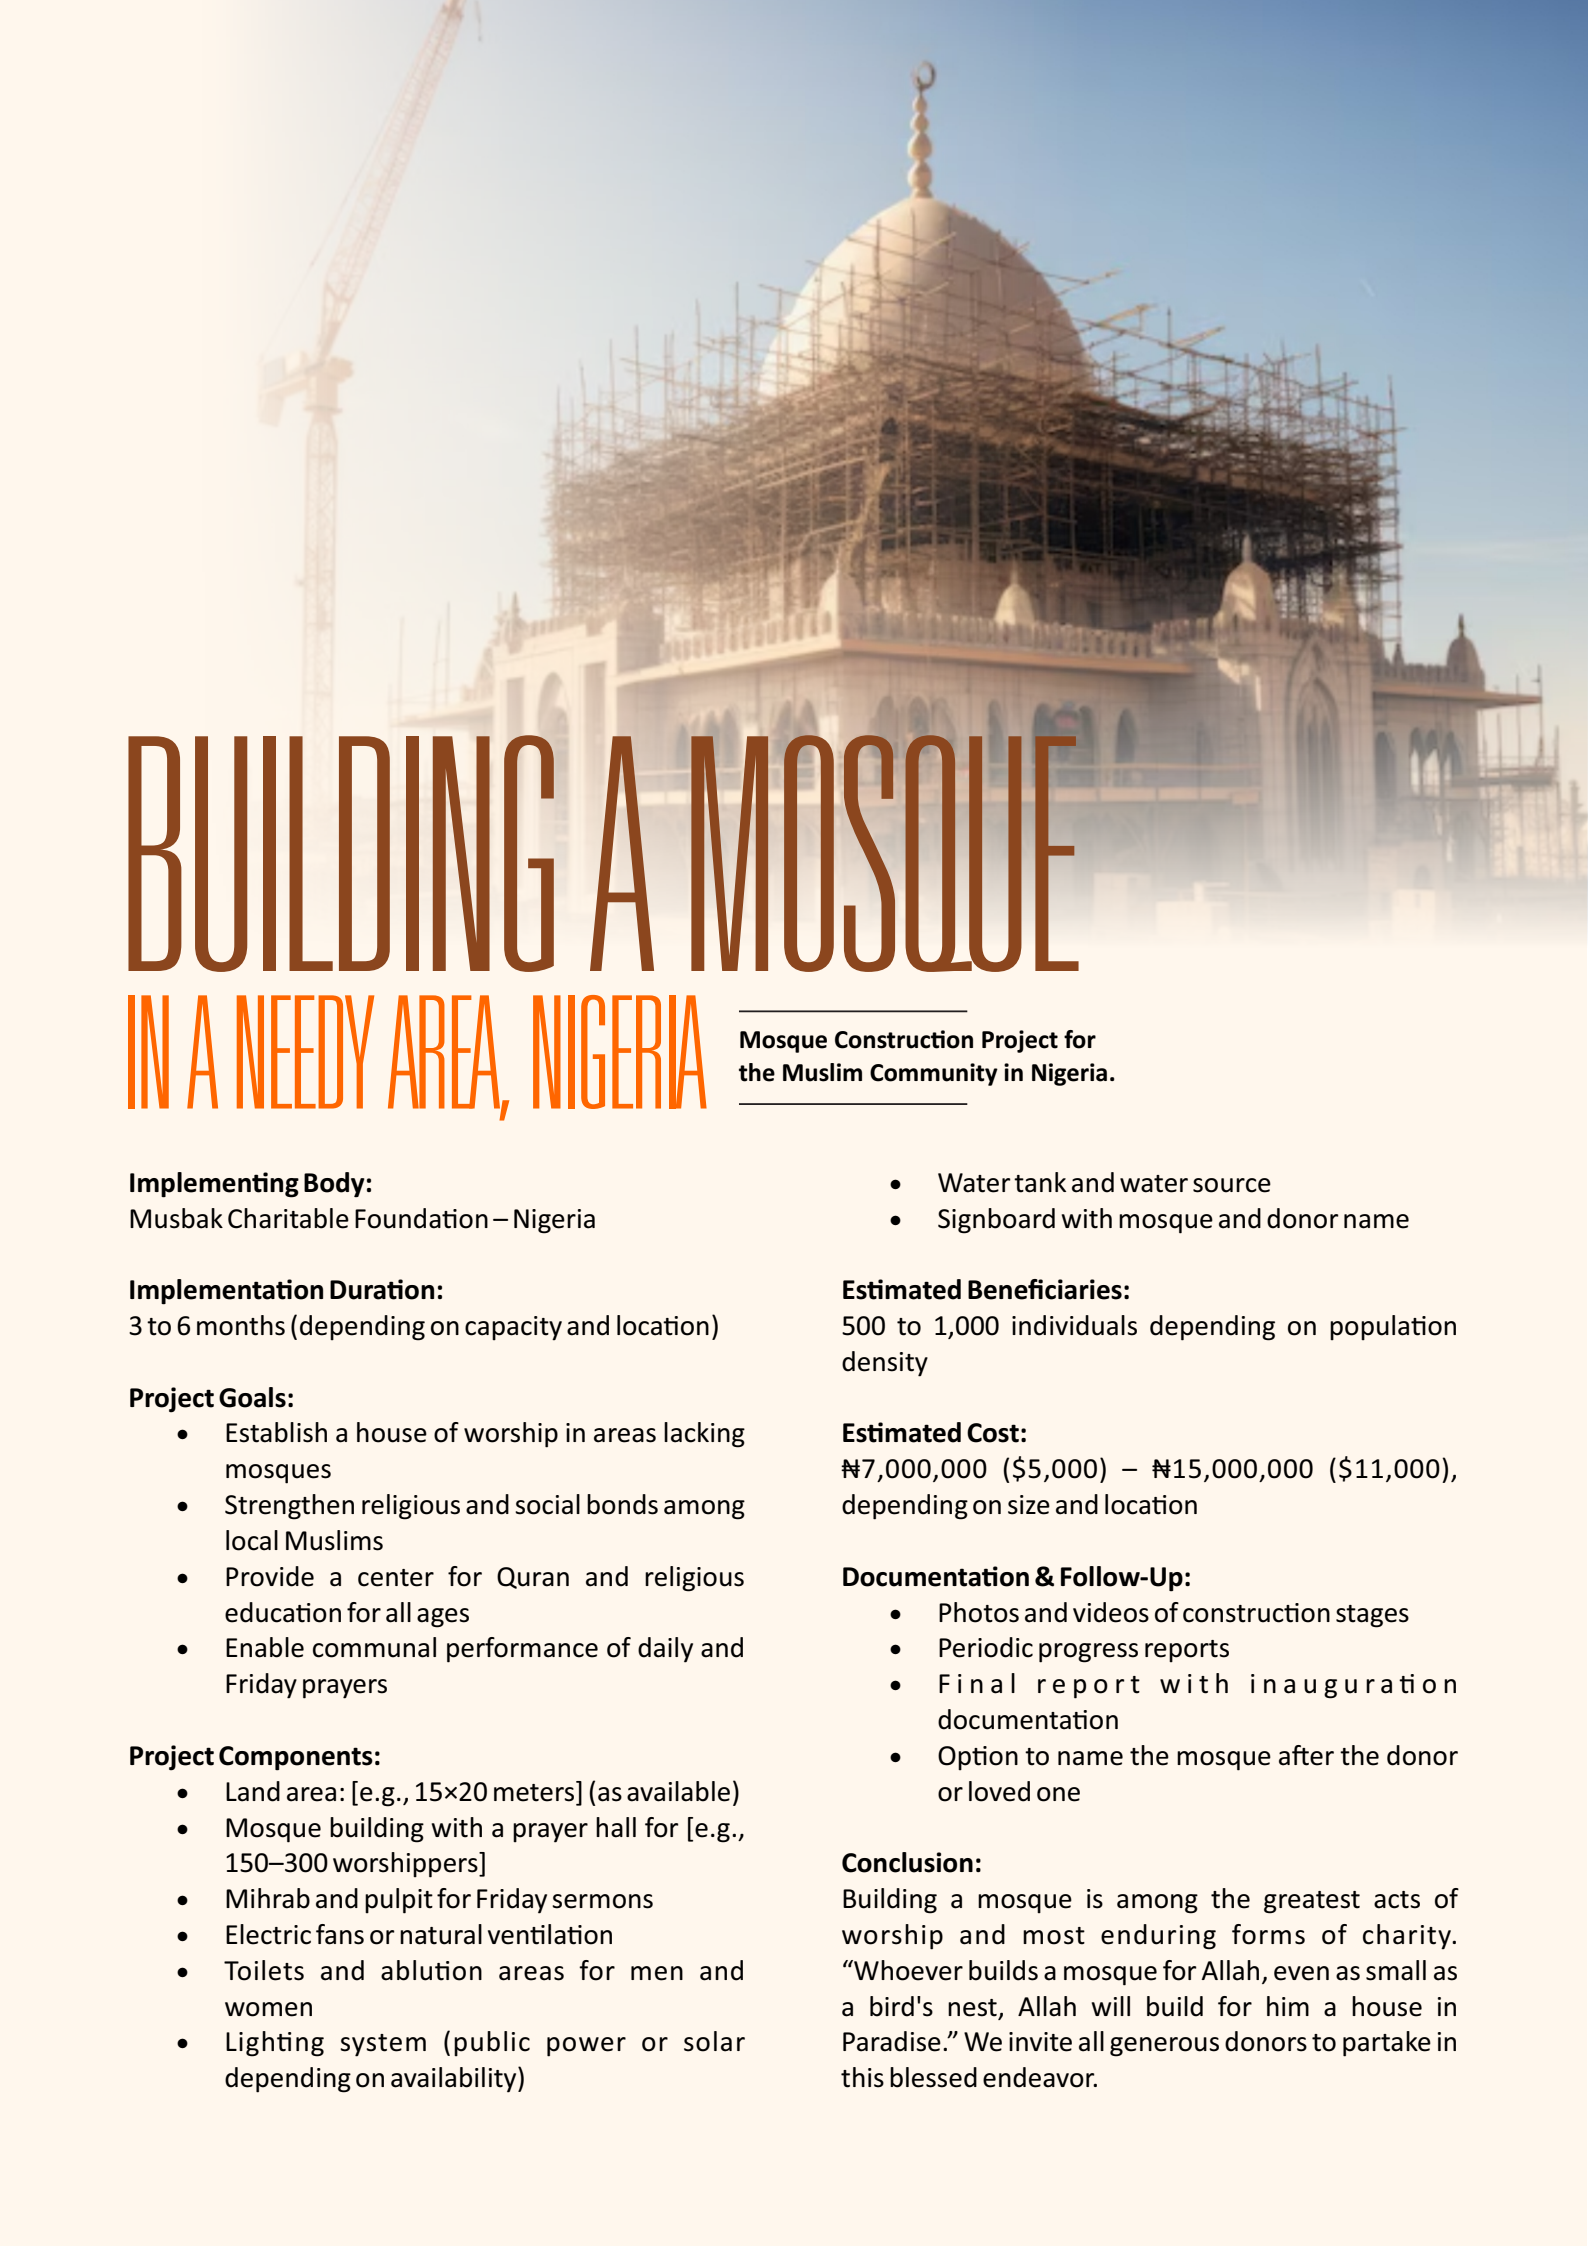

₦500,000 (\$500) – ₦900,000 (\$900), depending on location and well depth

Monitoring & Documentation:

- On-site implementation visit
- Photo reports before, during, and after implementation
- Video documentation upon request
- Financial and technical report to donor

Conclusion:

A hand-dug well is one of the simplest and most effective forms of ongoing charity, whose benefit reaches the needy and reward benefits the donor after death. We call upon our generous supporters to contribute to this great cause.

BUILDING A MOSQUE

IN A NEEDY AREA, NIGERIA

Mosque Construction Project for
the Muslim Community in Nigeria.

Implementing Body:

Musbak Charitable Foundation – Nigeria

- Water tank and water source
- Signboard with mosque and donor name

Implementation Duration:

3 to 6 months (depending on capacity and location)

Estimated Beneficiaries:

500 to 1,000 individuals depending on population density

Project Goals:

- Establish a house of worship in areas lacking mosques
- Strengthen religious and social bonds among local Muslims
- Provide a center for Quran and religious education for all ages
- Enable communal performance of daily and Friday prayers

Estimated Cost:

₦7,000,000 (\$5,000) – ₦15,000,000 (\$11,000),
depending on size and location

Documentation & Follow-Up:

- Photos and videos of construction stages
- Periodic progress reports
- Final report with inauguration documentation
- Option to name the mosque after the donor or loved one

Project Components:

- Land area: [e.g., 15×20 meters] (as available)
- Mosque building with a prayer hall for [e.g., 150–300 worshippers]
- Mihrab and pulpit for Friday sermons
- Electric fans or natural ventilation
- Toilets and ablution areas for men and women
- Lighting system (public power or solar depending on availability)

Conclusion:

Building a mosque is among the greatest acts of worship and most enduring forms of charity. “Whoever builds a mosque for Allah, even as small as a bird's nest, Allah will build for him a house in Paradise.” We invite all generous donors to partake in this blessed endeavor.

BUILDING A SCHOOL IN A NEEDY AREA — NIGERIA

Construction of an Educational (Islamic/Modern)
School for Muslim Children in Nigeria

Implementing Body:

Musbak Charitable Foundation – Nigeria

Implementation Duration:

6 to 12 months (based on funding and space)

Project Goals:

- Spread Islamic or formal education among Muslim children in remote areas
- Eradicate ignorance and raise religious and cultural awareness
- Provide a safe and organized learning environment for boys and girls
- Prepare a generation committed to Islamic values and societal service

Project Components:

Main Building:

- 6 to 10 classrooms
- Administrative and teachers' office
- Small library with Islamic and academic books
- Multi-purpose hall (for lectures/activities)
- School prayer area

Additional Facilities:

- Toilets for both genders
- Water tank and sustainable water source
- Electricity supply or solar power system
- Outer fence for school security

Furniture:

- Desks and chairs for students
- Whiteboards and teaching aids
- Teachers' desks

Estimated Beneficiaries:

150 to 400 students (primary and secondary levels)

Estimated Cost:

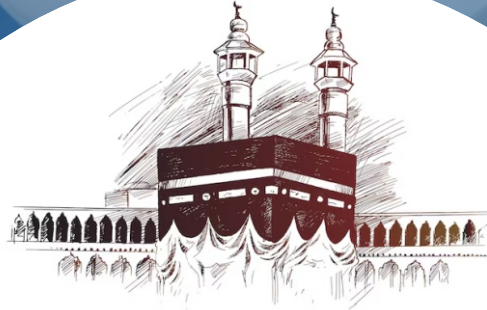

₦15,000,000 (\$10,000) – ₦30,000,000 (\$20,000),
based on number of classrooms and facilities

Documentation & Follow-Up:

- Photo and video reports on construction progress
- Detailed financial report
- Inauguration documentation with community leaders
- Option to name the school after the donor or loved one

Conclusion:

Knowledge is light, and education is the foundation of a nation's advancement. This project serves as an ongoing charity with lasting impact. Supporting the construction of a school is an investment in an educated generation serving their faith and community.
